CHANGED

Changed, changed! I feel that thou art changed.
Though change thou dost deny:
I feel it as the storm is felt
Ere seen in yonder sky.
Slight are the signs that slay the heart.
And slight those showing thine—
Ah! why should time exhaust thy love
And yet not alter mine?

Those eyes that used to fill with light
When I have gazed on thee,
That voice which into whispers sunk
Whene'er it spoke to me,—
Those eyes are cold, that voice is lost
Its low, peculiar tone—
Till now I did not know how much
I thought you were my own.

Be altered—faithless—what thou will,
But let me still believe
That once I was beloved again—
That thou didst not deceive
My present is a weary lot,
My future is a waste—
My heart, which dreams as I doubtless distrust,
Turns sadly to the past.

SILENT PREACHING.

Years ago in our western country a young couple were united in marriage. They at once entered their humble abode, containing two rooms, one serving as kitchen and dining-room, and the other as sleeping apartment. The bride was a simple-hearted child of God, but the husband knew of religion only by the hearing of the ear. It was not long before the latter discovered that at a certain time every morning his wife disappeared, and was nowhere to be found. The mystery was soon solved. This was her hour of secret prayer. Here was a new and no very welcome revelation. One in affection, one by ordinance of God in bonds which only crime or death could sunder, between them yawned a gulf wide as between heaven and earth. To the wife was opened a world of hopes and joys to which the husband was a stranger. While he was engaged in such reflections, every day the silent sermon was preached. At length he could endure it no longer. By Divine grace he was drawn step by step to faith and repentance, and ere long he found himself by the side of his companion at the same mercy-seat and at the same communion-table.

A Christian patriarch relates of his own history: When a young man I was distinguished for profanity and ungodliness. I married, however, strange as it may seem, a young woman of exemplary piety, and we went at once into our humble home full of anticipations of happiness. As the first day of our residence in our new abode drew to a close, the supper-table being removed, my wife without saying a word, placed a little table by my side, laid a Bible on it, and sat down opposite to me in evident expectation that I would conduct family worship. What could I do? I was spell-bound. I could not disappoint her. She probably knew nothing of my profanity and wickedness. And yet how could such a wretch as I kneel before Almighty God and utter words of devotion? Yet I did. I read and prayed. But O, as I took the name of Jehovah on my lips, a terrible sense of guilt and hypocrisy stung my soul. I rose from my knees in anguish of spirit.

Another day rolled by, another sunset came. Again the tea-table was spread and removed, and before I was aware, there at my side was the same stand with the dreaded Bible upon it, and my wife seated in full expectation of the evening devotions. Having yielded once, I was less able to resist again, and again I yielded.—A new horror now came on me—a dread lest, like Uzzah, I should perish in my sacrilegious act. The sick of a lifetime stared me in the face: my soul and Satan bade me curse God and die. Morning brought only a deepened sense of guilt, and all day long I could do nothing but brood over the gall of bitterness within, and the bonds of iniquity which bound me.

The third evening drew nigh, and with it the inevitable table with its sacred furniture. To yield again was impossible. Increasing horror took hold upon me. As I sought no aid from Heaven, Satan volunteered his. My mind was made up. I resolved on suicide. A rope hung from a tree in the orchard, with which I purposed to terminate, as I madly dreamed, the horrors of my soul. We took our third, and as I believed, our last supper together. I lingered in the room until I saw the dreaded moment at hand, took a last look at my bride and my home, and withdrew. I hastened to the orchard; every step increased my anguish. I ran; my reason seemed to reel. I passed the orchard, and found myself in the woods beyond. Overpowered by my emotions, I fell prostrate on the ground. How long I lay I know not: an eternity seemed crowded into that period; a horror of great darkness, passed over me in view of my sins. But in the thickest of the darkness, and when despair seemed ready to settle down in endless night, light broke upon my soul.—There was Jesus in all the fullness of the God-head. I saw and believed; I loved, and lived. I sprang to my feet the happiest of men. From that hour I have known scarcely a moment of doubt or fear.

As the old man spoke, the tears fell from his cheeks upon the floor, and his aged form shook with emotion.

What sermons were these, without an uttered word! What Christian living near to God can not thus preach! Would to God all the Lord's people would become preachers by a holy, consistent life.—*American Messenger*

WHY MEN REMAIN SINGLE.

In our researches we have found this reason for what young Ladies deplore as a lamentable fact: "All the confines between an upper class and a lower there is naturally a scramble. All men of education now a days, wish very properly to be regarded as "gentlemen," though they many not be in possession of "clair estates" or "valuable prospects." If they are married, they or at any rate their wives wish their daughters to rank as ladies, and this condition, unfortunately, is thought incompatible with incomes below a certain amount. Marriage, therefore, is rendered difficult on both sides at once. Mothers are exacting, while suitors are poor. The father of a family cannot transmit the whole of his savings to each of his sons, wherein the mother of a family desires nothing less than this for fear for each of her daughters. As a natural consequence, a young man hesitates before he attempts to make a bargain which he knows will be a hard one, when he can scarcely afford to make any at all."—*N. Y. Traveller.*

R. H. EDDY,

SOLICITOR OF PATENTS.

Late Agent of U. S. Patent Office, Washington,

(under the Act of 1857,)

No. 70 State St., opposite Kilby St.,

BOSTON,

After an extensive practice of upward of twenty years, continues to secure Patents in the United States also in Great Britain, France, and other foreign countries. Caveats, Specifications, Reports, Assignments, and all papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches, made into American or foreign works, to determine the validity or utility of Patents of Invention,—and legal or other advice rendered in all matters touching the same. Copies of the claim of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through its associates have advantages for securing Patents, of ascertaining the patentability of inventions unequalled by any. If not immediately successful in which case no charge is made.

The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has good reason to believe, and will prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the actual guest delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse.

CHARLES MASON
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in form to secure for them an early and favorable consideration of the Patent Office.

EDMOND BURKE.
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part lead me to recommend all inventors to apply to him to procure their patents as they may be sure of having the most faithful attention bestowed on their case, and at very reasonable charges."

JOHN TAGGART.

During eight months the subscriber, in connection his large practice, made on *forty* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

THE SITUATION.

TO-DAY we commence another week—and a week, in historic times, like those in which we are now living, may be of vast moment: may present to its seven days, an immense amount of human action of incalculable importance to the actors and to the world of spectators.—Last week, we feared, was destined to close its important and somewhat bloody record, in a manner dishonoring to every lover of his country. Our expectations had often been most unreasonably raised for a decisive blow, somewhere, and more especially by the old army of the Potomac, but it always has proven to be "the word of promise to the ear, and broken to the hope." We had been, by a variety of casualties, mistakes, betrayals—causes unknown and unmentionable—always doomed to disappointment. A change, or rather, several changes of the commanding generals had, each in turn, inspired fresh hopes, which were, each, in turn, to prove falsely false in the event.—But, when it was known that fighting Joe Hooker, *he last* appointed commander-in-chief, had actually begun a forward movement, *then* it was that the hearts of Northern loyalists beat high with hope and triumphant victory. The river that separated the loyalists from the rebels was crossed, and a terrible and bloody battle had been fought by Hooker and his brave generals the particulars of which did not fully transpire until the close of the week. They were at first such as to fill the minds of those intrenched in Union-loving men, who had been disappointed so often, with the most dire forebodings,—One division of our troops had shown the white feather, other portions had been cut to pieces, some were demoralized. One general and all his command was missing, and, last and worst of all, the commander-in-chief had beat a retreat, and abandoned positions gained at the expence of many lives, as at Fredericksburg. But as the week closed, and the facts in the case became more exactly and reliably made known, the situation became more hopeful, and what seemed to be a real disaster and a disgraceful defeat, began to be exhibited in a more hopeful light. Indeed, we say without fear of contradiction, that a calm review of the situation on Saturday night was of the most encouraging nature. Many weak hearts that had trembled at the prospect, were strengthened: and many tongues that were trumpet-toned in their blasphemic attacks upon the imbecility of the Administration, of our generals, and of all concerned, wagged with a more becoming caution.

Now, let us see: the facts proved to be, that Gen Stoneman with a cavalry force, had made a raid within four or five miles of Richmond, cutting off all the rebel general Lee's communications with the Rebel Capital, and capturing a large amount of prisoners: among whom were the Richmond City Battalion, sent out to discover *the enemy only*. Gen. Lee had suspended all intercourse with his Richmond friends—that Richmond was in reality at our mercy; although not known at the time—that a large number of the rebels had been killed and wounded—among them some of their best officers, and, a very large number of rebel prisoners captured, all at once, that, in place of our own troops having suffered an inglorious defeat, they had actually crossed over the river and given the surprised rebels a most terrible "thrashing," and then recrossed the river again from simply prudential motives, lest its rise should cut off the communications of the General from his source of supplies: and also because the brilliant raid of Gen Stoneman was not known at headquarters—that Gen. Hooker had in fact abandoned his hard-earned possession of Fredericksburg, for the very same reason that the rebels abandoned Harper's Ferry at the battle of Antietam—which the rebels claim always as a great victory—simply as a military necessity, in order to preserve their communications which were threatened—and, finally that our army has probably recrossed the river, and are prepared for confident for great and decisive events.

Added to all this we have the most cheering news of Gen. Grant's operations in the South West by which Port Gibson and other important posts have been occupied, and Vicksburg threatened in the rear by our conquering troops—and [illegible] more, we have the most cheering expectations in regard to another attack upon Charleston by our iron-clads, which now may be said to have the doomed city; and we may expect at any moment, to hear that it has been taken.

These are the facts that cluster around the closing record of the week. That even loyal men do view them with differing feelings, is not a matter of surprise—some elated—some discouraged. The holy Sabbath has intervened to allow all classes of men—the strong and the weak—the hopeful and the disconsolate, to calm their throbbing hearts in the serene recognizance of the hand of God, and there, apart from the world of business or politics, to bow in humble and adoring submission to the Ruler of Nations, and gather renewed strength for the great battle of life. Even that holy day was not undisturbed by rumors of varied importance and reliability, but which left us as they found us, with more to hope and *less* to fear than on the first day of the week that has gone. But the record of this week! ah, what shall it be? Upon what a condition of affairs shall its not distant, closing sun go down? Victory or defeat for the friends of universal liberty? Which it shall be is known only to that Being, who, in infinite wisdom, from all other beings "hides the book of fate." But we are hopeful. Towards the Administration, and our commanding generals, we invoke the virtues of the divine Triad—Faith, Hope and Charity. We see the dawn of the coming day, and doubt not, in the least, that the events of one short week will inspire the lovers of the American Union with fresh and well-founded hopes of a speedy restoration of this country to its original status. Let us never despair of the Republic, but rather, keeping in view the beautiful motto of our little but loyal State, "in the God we hope," be willing to lay our lives and all that are and all that we possess, upon the altar of sacrifice, in order to save our country and restore peace.

Sunday Services.

CENTRAL BAPTIST CHURCH. This church was supplied yesterday, by the Rev Mr. Bell of Wickford: he having exchanged with Rev Mr. Robbins. Rev. Mr. Bell preached in the morning from the eleventh chapter of St. John's Gospel and the 25th and 26th verses. The subject was, the resurrection and a future life as revealed by the Savior; and the power of the Gospel to regenerate man, derived from this revelation—a future existence—involving hopes and fears as well as consolations that were powerful incentives to regulate human conduct in this life.

The doctrine of the resurrection was not discussed philosophically, but taken for granted as established by the resurrection of Christ, and his power over death as exhibited in the resurrection of Lazarus and others. This was spoken of as corporal resurrection, but the preacher also spoke of the doctrine of immortality or a future existence as revealed in the text. Christ had not only power to restore the dead to corporal existence, but he could confer immortality after death. This was available to all through faith. Not but that all must see death, yet, a new spiritual life and immortality beyond it was the gift of Christ, attainable by faith in him. The inducements held out to love and labor for this incredible reward, was in the fact, that the reward will be so great as to unite with all who have gone before—prophets, Patriarchs and all our own friends who have "died in the Lord." The other deduction was enforced also that we must all live again, either in eternal happiness or eternal misery, and that those who die finally impenitent place between themselves and their own christian friends and the good of all ages, an impassable gulf, for eternity. The exposition of the doctrine and the motives for believing and acting upon the declaration of the Savior in the text were stated and enforced with much emphasis and eloquence. In the afternoon he preached from 147th Psalm and the eleventh verse. Interlocutory evening services were held in the chapel—it being the regular monthly S. S. Concert. Mr. Bell is a pleasing speaker, with a very modest voice.—He has a son who is also looking forward to the ministry, but who left his studies and joined the 12th R. I. Regt., in which he is now serving as an Ensign. He is a young man of promise.

ZION CHURCH.—In the afternoon yesterday, the services in Zion Church were of an unusually interesting character. The rite of infant Baptism was administered to ten children and one, who had been baptized in private, was certified before the congregation according to the directions contained in the Order for the "Private Baptism of Children in Houses," which directs that if the child so baptized live it shall be taken before the congregation and "certified" by the Priest, in these words: "I certify you, that according to the due and prescribed Order of the Church (naming the time and place) before divers witnesses I baptized this Child." Eleven children with their parents and sponsors around the chancel, formed an interesting group, and the administration was deeply affecting. Rev. Mr. Child preached from the nineteenth chapter of St. Matthew's Gospel; the 13th and 14th verses. The discourse was a brief, but succinct and impartial statement of the arguments of those who hold to the Baptism of Infants. It was granted by the Preacher to be without any express command in the scriptures for the rite, but as it was intended to take the place of circumcision in the Jewish Church, no doubt it was practiced by the church in the Apostles' days, as well as by the Church in all ages. It was granted that faith also was necessary in order to insure the benefits of Baptism—but in this case it was one where the benefits were allowed upon the faith of others as the miracles of the Savior were often wrought upon the faith of other persons and not of those immediately concerned. There being no express command or record of Infant Baptism in the scriptures, was held, to be "a trial of our faith and in order to put to the proof, the spirit of our obedience." It was a plain and unaffected statement of the principal arguments in favor of the rite, which are and must always be, rather inferential than positive, so far as *Scriptural* declarations are concerned.

The music, under the direction of Mr. Burroughs, of the Naval Academy Band has improved very much, and is fine. The organist, Mr. Spencer, has improved much since we heard him last, and his playing yesterday was excellent, and worthy of being performed upon a good instrument. Thursday next being the Feast of Ascension, the Rectora announced that service would be held in the Church, and the Holy Communion celebrated, at six o'clock in the morning.

UNITARIAN CHURCH. Rev. Charles T. Brooks at the Unitarian Church, yesterday morning, preached a very able war-sermon—taking strong grounds that in *right* there is *might* and that we should continue to have an abiding and unwavering trust in the righteousness of our cause and in the God of right. Text: II Corinthians 4th ch. 8th and 9th verses.

M. E. CHURCHES. The ministers of these two Churches exchanged in the afternoon of yesterday.

TRINITY CHURCH was closed: it is being cleaned. Rev. Mr. Prescott assisted Rev. Dr. Balch, at Emanuel Church in the morning service.

THE NEWS YESTERDAY.—The quiet of the Sabbath was broken yesterday, by a despatch of the most exciting nature, which we give entire. It purported to come from the Philadelphia *Inquirer* and to be brought to them by a Washington correspondent direct, and *from their reliable source*. It announced the capture of Richmond, by Gen Keys and force from Yorktown. Rest, all this, pretty generally believed. At noon many flags all over the city were raised, and the whole city became jubilant and congratulatory. But, as they *had been* disappointed on former like occasions, our citizens seemed to adopt the language and idea of the immortal Bard, that, *"Enough was never by enough,"* and, towards night, at the hour of seven o'clock a large and inquiring congregation assembled around the telegraph office, who, like zealous churchmen, seemed to look for "confirmation" from the inspired head. "If there is confirmation," was the oft mooted question. But alas, no confirmatory despatches came to bolster up those of the morning intro reward public confidence, and at 9:30 o'clock the office closed upon the waiting crowd, who then left and took their departure dispersed to their homes.

This is not the first time that it *seemed* all this has occurred from the *same source*, and we would recommend that this *Inquirer* surprise a little more closely, ere he make his credit known to the public.

The following is the despatch:

PHILADELPHIA, May 9.

The *Bulletin* of this city of this evening has the following highly important intelligence: We learn from the Editor of the Philadelphia *Inquirer* that one of their correspondents who has just returned from Washington informs them that Hooker recrossed the Rappahannock in force yesterday the men carrying eight days rations with them. We also learn from other sources, that we vouched for as reliable, that Gen. Keyes has taken Richmond, having advanced upon it from Yorktown and the Federal flag now floats over the Rebel Capitol. If this intelligence is true, it proves that Hooker's falling back was a ruse and that the real advance upon Richmond was to be made while Lee's army was on the Rappahannock. If Stoneman has cut off communication as is reported it will be a work of time for Lee to reach the Rebel Capital. In the meantime Hooker is upon his heels. We have confirmation from reliable sources that Hooker has recrossed the Rappahannock.

Later, Philadelphia 9th. It is reported that private advices have been received in this city from Fort Monroe stating that one thousand Federal troops arrived there on the 5th inst., re-inforcements and immediately moved forward for the attack on Richmond. There is no doubt that Gen. Hooker has recrossed the Rappahannock.

It is also reported that Gen. Stoneman was lying at the White House on the 5th inst., and receiving reinforcements by transports, via York River, which he immediately moved forward to Richmond. The people of this city are in the highest enthusiasm over this glorious victory.

DEATH OF JOSEPH G. STEVENS.—It is our painful duty to record the death of Joseph G. Stevens Esq., one of our most esteemed and respected citizens. He died this morning about 2 o'clock, in the 69th year of his age. Mr. Stevens had been a merchant in Georgetown for the past forty years, until the breaking out of the rebellion, when he and his son who were at Georgetown, were compelled to get away in the best possible manner, and Mr. Steven's property was seized and confiscated by the rebels. He was a loyal man and as such his presence there was not tolerable. His health has been failing for some time past, and he has made two voyages to Cuba on account of it; from the last of which he returned about three weeks since. Mr. Stevens we have known almost from boyhood, and we have known few men who possessed a more sprightly flow of good disposition or who, for winning not only the esteem but affectionate regard of all who knew him.

He leaves a wife and a large number of immediate family relatives—children and their descendants, besides a very numerous circle of friends and acquaintances, who deeply and sincerely mourn his loss. There is a consolation to them in the fact, that as he was bitterly afflicted from his physical infirmities, death was but the messenger of relief to him, and the entrance to an eternal rest from all troubles, pains and woe.

THE SEASON.—The Season, which has been heralded as one of great promise to the landlords of our fashionable Hotels, appears to have begun unusually early, and "all ready to give tokens that the prophecies of a positive summer season are to be realized. We are informed by New York papers, that the Niagara Falls Hotels are all open for the season. The *Niagara House* has been remodeled, new works, and elegant public accommodations also desired to patronize it, and the *Cataract* and the *Union*, are doing a good business. The *International* and the *Clifton*, will both open soon. Commencing thus early, and being patronized more or less, even after the title sets this way in the latter part of July, gives a considerable advantage to them over our season, which is shortened at both ends by a late beginning and an early close—ending at the first of September, so far as the Hotels are concerned.

IMPROVEMENTS.—We are always glad to place this word at the head of a local, especially so, when it relates to our own neighborhood. We notice, that there is a decided "change of front," as the "military folks" say, near our office. The block of Mr. Benj. H. Allmon and that of Mr. Ira French, have both been newly painted, and look as much better for it, as a man's soiled face does after a good "shave and wash." These stores now look "first rate," and we rejoice to see this sign of prosperity among our business men.

MILITARY.—The "Aquidneck Infantry" will meet, this evening at Aquidneck Engine House, at 9 o'clock, and the "City Guards" at the Representatives' Hall in the State House at half-past 7 o'clock, and the "National Cadets" in the lower Hall, at the same hour, for the purpose of choosing officers for their respective corps. This is done under the new Militia Law, which provides that all companies organized under it, shall elect officers this day. These companies are full to the number of one hundred and one.

BELLEVUE HOUSE.—This house, which was opened during the season, last year, has been leased to C. C. Putnam Esq., of New York. Mr. Putnam is a gentleman of a large experience in the Hotel business, having been proprietor of the "Clarendon Hotel" in New York, and also of a Hotel at Saratoga. His adaptability and large experience of this well known Landlord, will, we doubt not, in some good degree secure the large prospective patronage of our summer Hotels, during the coming season.

CITY RIFLE SOCIETY.—Our citizens going to Lake will not forget the annual meeting of this society, this evening, at one quarter to eight, at the Lecture room of the Central Baptist Church in Clarke Street. Addresses will be made by several speakers, and it is hoped that there will be a large and punctual attendance. It certainly is a worthy and important object, and deserves the highest efforts of all who prefer, and will thereby derive benefit, to subsequent interests, and the cause of Rifle circulation, generally.

LIEUT. WM G. TURNER of this city brother of Dr. Henry E. Turner and an officer in the 2d R. I. Regiment was severely wounded in the late battle in Virginia. The wound is in the abdomen, and he would have been fatally killed but for the pocket-book which broke the force of the ball.—Francis Lawton Esq., his brother-in-law, left here on Saturday evening by the order to bring him home, if possible. We hope his mission will be successful, and that Lt. Turner will soon be in the bosom and circle of his own family and friends.

STORE TO BE OPENED.—The store on Washington Square, recently occupied by the late John Stone, has been leased and will soon be opened, by Mr. Stephen Albro, of Portsmouth formerly clerk in the store of Mr. Wm. B. Cornell, on Broad Street.

THE LIEDERKRANZ.—The German social association will be held at Young's Hall this evening. The price of admission has been changed from one dollar to fifty cents, for a gentleman and two ladies. See advertisement.

THE ATLANTIC MONTHLY for May is at hand. This number is not a whit behind its predecessors which have gained so excellent a reputation among the reading public. Its opening Article is an interesting selection from Charles Lamb's uncollected writings. There are other noticeable Articles, among which, are a new story begun entitled "Hark Way," by Miss Prescott; "The Human Wheel, its Spokes and Felloes," by H. Holmes; "Up the Thames," an English Article by Hawthorne; "The Free Fenians of the Carboniferous Period" by Prof. Agassiz; Gale Davis, by Gail Hamilton; "Pool Rhodes," a new story begun by the author of "Life in the Iron Mills." The question "Shall we Compromise" is well answered by D. A. Wasson. Roberts Brothers and Fields, 135 Washington, corner of School Street.

DWIGHT'S JOURNAL OF MUSIC is received. This is a valuable musical publication, and has been heretofore published as a weekly, but is hereafter to be published semi-monthly, or, once in two weeks, instead of once a week. Oliver Ditson and Co. 277 Washington Street, Boston, Mass.

"LEAVES FROM THE DIARY OF AN ARMY SURGEON," is the title of a new work by one Dr. Ellis, who has been in the British service. It is a pearly written book, the chief ingredient of which is common sense and modesty, and the chief intention of which, seems to be to inform the Administration and the people of this country in regard to their political duties and *the nature of our institutions. Rather gassy were that!* The attempts of Johny Bull to school this nation into a just understanding of their political rights, and the best way to preserve them, would be intolerable, and disgusting, if their unbounding impudence, and geographical and statistical errors, and egregious blunders of all kinds, did not relieve the sombreness of disgust and anger by the lightsomeness of the ridiculous and mirth provoking.

REMARKABLE SUICIDE IN NEW YORK CITY.—Most Remarkable Will.—The following remarkable and cool business of suicide and disposal of the suicide's body by will made previous to the fatal act, is certainly one of the most wonderful incidents in the daily annals of a wonderful city, in a wonderful age. We copy the statement and will, from the New York Sun:—Dr. Edmund Baron, a French gentleman, 28 years of age, committed suicide in his room at the Metropolitan on Wednesday night, by stabbing himself in the heart with a surgeon's knife, and was found dead in his bed yesterday morning. He left a letter stating that he had first taken an ounce of laudanum, without effect, and next time would take a pound. He further said that he would have shot himself, but as his revolver made so much noise as a 68-pounder, he was afraid of disturbing the persons who occupied adjoining rooms. The following will in regard to the disposition of his body was also found upon his table:

"I do hereby bequeath my body to my talented and, some day or other, illustrious friend, Dr. F. Donkin Weisse, No. 39 West 15th st., N. Y., and request him to cut up my skeleton in his office.—I would suggest that he take the flesh off my bones, open the skull and pull out the brains, pierce holes in the bone bones with a gimlet, and let out the marrow to improve the whiteness, then soak until all the soft and cartilaginous parts come off easily and then perfectly dry. Then soak it in a solution of magnesia, and when dry, rub it well and paint it over with silicate of potash, after which set up with wire. I will consider the fulfillment of the above request as a special favor. It will be no use to save one's old dwelling place kept so clean and in good order, instead of rotting away in some dirty place. Now Donky, too, when we are all summoned to the valley of Jehoshaphat, to find one's bones already together, instead of having to haggle among a crowd and pick them up one by one in some charnel house. Should my learned friend fail to comply with my request, I will certainly come back and pull his head out by the roots, provided they give me a furlough.

And now, with my love to I', good bye

CHARLES BARON."

Coroner Wildey held the inquest, and Dr. Geo. E. Bonton made the *post mortem* examination.—Evidence was taken showing that the deceased had recently left a large fortune by endowing for a friend in France, and that he arrived in this country but a few weeks ago. The jury rendered a verdict of "Suicide with a knife."

DIED.

In this city, at 2 o'clock this morning, May 11th, Joseph H. Stevens, Esq., aged 68 years.

The funeral will take place from his late residence in Thames Street, at 3 o'clock on Wednesday afternoon. Relatives and friends, also the Masonic Fraternity and Mechanics Association are invited to attend.

PURE BOURBON WHISKY,

BOTTLED BY

HUDOLPHO WOLFE,

TO THE PUBLIC

Having been solicited by City Wine Dealers and Private Families to put up for them a "Pure Bourbon Whisky, in bottles, that could be sent out and have no trouble with my "Medical Stamps," to seal it with my seal, and put my certificate to the label, as its undoubted purity, I am happy to say that, after a great deal of difficulty, I have concluded an arrangement with two of the largest and oldest Distillers in Kentucky for a regular supply.

The Whisky will be put up in quart bottles only, and packed in cases of one dozen each.

Craving for the following letter a candid and attentive perusal,

I remain yours, &c.

HUDOLPHO WOLFE

New York, January 20th, 1863.

Messrs. Wolfe, Lyon & Co., 22 Beaver St., New York.

DEAR SIRS,—The want of Pure Liquors for Medicinal purposes has been long felt by the profession, and thousands of lives have been sacrificed by the use of adulterated articles.

We have tested the Bourbon Whisky which you sent us, and consider it pecularly applicable to the high requirements you claim for it.

We would recommend you to appoint some of the respectable Apothecaries in different parts of the United States as Agent for the sale of your Bourbon Whisky, where the profession can obtain the same, when needed for medicinal purposes.

Wishing you success in your new enterprise,

We remain, very obedient servants,

OUR WOUNDED TO BE SENT TO OUR LINES.

Rumored Capture of Col. Straight.

&c., &c., &c.

PHILADELPHIA, May 10.

Forney's Press Washington correspondent says it is understood that Gen. Buford with his light brigade has penetrated to the Alleghany Ridge in Western Va., and that he is now returning having destroyed the Richmond and Tennessee railroad in several places, captured many prisoners, obtained important information and burned a large quantity of stores intended for the rebel armies in the South-west. Yesterday Gen. Pleasanton's cavalry crossed the river and proceeded immediately to the front for the purpose of reconnoitering the enemy's position. A few hours ride brought them to our old position and about Chancellorsville in this neighborhood no rebels were discovered except the killed and wounded. These were disposed of properly and as rapidly as possible. A considerable number of stragglers and deserters from the rebel army and some of our own men, came into our lines yesterday and gave themselves up. The former protest that they have no feeling in this war and are willing to take the oath and become good citizens. Some of these men saw columns of rebel retreating panic stricken in confusion on Wednesday night through a terrible rain storm.

The New York *Tribune* thinks the Va. campaign as follows: Our forces at Suffolk, and on the Peninsula made a demonstration towards Richmond early last week: Gen Lee is apprised that the rebel Capitol was left without prompt support from his army. Gen. Lee had already begun to send troops to Richmond on Tuesday last: that Lee at once saw the with a good part of his force was well on the way to Richmond Thursday: that Hooker with an army fleshly provisioned crossed the Rappahannock on Friday night and found but a screen of pickets in his front and nothing worth mentioning this side the north Anna: that Lee or one of his Lieutenants reached Richmond just in time to prevent its capture by our forces from Fort Monroe and that this week will not pass without stirring news from Richmond or the banks of the Pamunkey

NEW YORK, May 11.

A Despatch from Gen. Hooker's Headquarters 9th states that all the wounded in our lines are properly cared for and have everything they need. Those within the enemy's lines are to be sent over to us.

MURFREESBORO, May 9.

Rebel reports from Chattanooga say the force sent from the army under Col Straight of the 51st Ind. has been captured near Rome Ga. after five battles with the enemy.

MURFREESBORO, May 10.

Col. Straight left Tuscumbia 24th ult., going to Blountsville. He there whipped the rebels badly. He then moved towards Rome. The rebels statements are subsequent to this and say an overwhelming force surrounded straight and captured him. He had destroyed some large iron works on Cessie River.

MURFREESBORO, May 10.

The *Chattanooga Rebel* gives an account of the capture of Col. Straight's forces. It says Forrest and Col. Roddy attacked Gen. Dodge near Tuscumbia 28th after fighting several hours, Forrest fell back to Courtland. Col. Straight made a detour of his army to Courtland and moved towards Georgia. Forrest pursued and overtook him at Dayton. A battle ensued and Straight was driven forward with the loss of forty seven six miles further on Straight was again driven forward and taken from Roddy. Fifteen miles further south, Straight was again attacked by the rebel. Next day Forrest overtook him at Blountsville driving him with loss of three killed and 72 wounded. Bridge near town of Gaden was destroyed nine miles beyond Gaden another skirmish occured and Col. Hathaway is reported killed. Straight was finally overtaken about 6 or 10 miles from Cedar Bluff and 26 from Rome. An advance of 700 had gone to and Rome and were checked about two miles from the city by armed citizens. Forrest demanded Straight to surrender and Straight complied. The rebels tells a ridiculous story that only 41 men were in the fight and that they captured 1700, consisting of the 3d Ohio, the 18th Illinois, 51st and 73d Indiana with three companys of Alabamas and 1 mountain Howitzer. Another raid into Georgia is reported by the rebels which says that a force of 3000 had gone as far south as Talladega 80 miles below Rome that the Georgia troops were mounted on animals taken from Straight and sent after the Yankees.

The Rebel reports that three transports and two gunboats, descending Tennessee River on the 27th April were attacked by Col. Woodward and transports sunk. Gunboats escaped. A Rebel despatch dated Jackson May 4, says: The enemy are reported in force near Edwards' Depot four miles this side of the Big Black River. They captured one hundred pickets. The enemy were repulsed yesterday at Anderson Ferry on the Big Black after four hours fighting. A special correspondent of the *Appeal* says, that twelve houses were burned at Bidania by the Yankees who camped at McHaim's Mills, seven miles above Salem since the establishment of a permanent camp there.

A raid was made on Holly springs on Sunday. Gen Mitchell ransacked them as they went out and killed Colonel Jenking and captured his horse and paper. The *Rebel* continues the following.

RICHMOND, May 5.

The following has been received from near Fredericksburg dated May 5, and addressed to His Excellency President Davis. At the close of the battle of Chancellorsville on Sunday the enemy was reported advancing from Fredericksburg on our rear. Gen. McLaws was sent back to arrest his progress and repulsed him handsomely that afternoon, learning that his force consisted of the corps under Gen. Sedgwick I determined to attack him and marched back yesterday with Gen. Anderson and united with McLaws early in the afternoon and succeeded by the blessing of Heaven in driving Sedgwick over the river. We have reoccupied Fredericksburg and no enemy remains South of the Rappahannock or in the vicinity." Signed) R. E. LEE.

General Cond's

RICHMOND, May 3.

No official despatch were received last night from Gen Lee but private despatches report our victory complete. Gen. Hooker's 3d army corps fell back on the 1st and 11th corps and Sedgwick supported below the Rappahannock by Gen McGehee of Winchester. The Corps de reserve of the enemy, Lee still on the south side of the Rappahannock, with the army of Northern Virginia, in communication, with the army of the Valley.

MURFREESBORO, May 5.

Wheeler's Division of rebel cavalry, who were moved from its position on our left and advanced in force to Lebanon with the evident intention of following upon Carter who is reported in the vicinity of Jamestown. His cavalry have already fought Cobb, and the most extensive rebel operations against Burgg's infantry, would be in position to the intention of occupying our attention and to prevent a detachment being sent to reinforce Rosecrans who is known to be pressing them.

RICHMOND, May 6.

An official account of the destruction of horses and hogs at Vicksburg on the 3d of May, says that twenty-four prisoners were taken, including one correspondent of the New York *Times* and two of the *Tribune*, and two of each of the Cincinnati *Times*.

NEW YORK, May 11.

The *Times* says it is known that Hooker has been crossed the Rappahannock.

NEW YORK, May 11.

An attempted prize fight at Staten Island between Elliot and Dunn was suppressed by the police this morning. Two thousand persons had collected to witness it but scattered on the approach of a small body of police.

Dr. Mattison's Diuretic Compound,

For Acute and Chronic Gonorrhœa

This new remedy contains neither Balsam, Copaiba Spirits of Nitre, Cubebs, Turpentine, or any other noxious drugs, but is entirely vegetable, and is destined to supersede all others. It is prepared in the most concentrated form, and is the most speedy, cleansing and healing remedy ever discovered. It allays all heat and irritation, so the sufferer passes from the first dose, without pain or inconvenience. Very many who have been swallowing down *Balsam Copaiba* and *Cubebs* by the quart, without any benefit, have been entirely cured by this. Others who have been salivated by *Mercury* and *Iodide of Potash*, have found it a sure, safe and speedy remedy. In all cases of Gleet, Stricture, Inflammation of the Bladder, Diseases of the Kidneys, Gravel, Dropsical Affections, Pain in the Back, Loins and Kidneys, Female Irregularities, Whites, Chronic Inflammation and Ulceration of the Womb, this remedy is unequalled. It is prepared expressly for these diseases, and is the only remedy ever discovered that will cure them in a few days. It is pleasant to take, producing no nausea or sickness, and can be taken in any climate, and during any season, without exposure. Put up in one size bottle only, price $2 per bottle. A circular describing the disease and containing full directions sent free to any address. Sold by druggists everywhere.

Dr. Mattison's Anti-Syphilitic Syrup,

For Constitutional Syphilis

No remedy ever discovered has done what has been accomplished by this. Under its use every form of Constitutional Syphilitic taint is speedily cured, and in a few weeks the entire poison is completely eradicated from the system, and its original strength and purity permanently restored.

☞ *It is at this season of the year, when the system, after having been for months under the influence of the various impurities which Philadelphia and New York are FULL OF, that a powerful remedy is most needed.* For this purpose the Anti-Syphilitic Syrup is unequalled. It will clear the blood, and thoroughly purify the system from all taint of disease, more effectually than any other remedy ever before known to the profession, as it will bring to the surface, and entirely eradicate from the system, all the poisonous matter which has been driven in by Mercury, Iodide of Potash, or any other mineral poison. Under its use the sores heal, the pimples disappear, the skin becomes clear, and the whole system is renovated and built up anew. For all diseases originating in a bad state of the blood, such as Scrofula, Ulcers, Boils, Pimples on the Face, Blotches, Sore Eyes, Rheumatism, Mercurial Disease, Female Irregularities, Gonorrhœa, Gleet, Stricture, Syphilis, Nervousness, Debility, Loss of Memory, Indigestion, Dyspepsia, Liver Complaint, Dropsical Affections, Pain in the Back, Loins and Kidneys, Gravel, Diseases of the Urinary Organs, and all diseases arising from Indiscretion or Exposure, this remedy is unequalled. It is prepared expressly for these diseases, and is the only remedy ever discovered that will cure them in a few days. It is pleasant to take, producing no nausea or sickness, and can be taken in any climate, and during any season, without exposure. Put up in one size bottle only, price $2 per bottle. A circular describing the disease and containing full directions sent free to any address. Sold by druggists everywhere.

☞ ONE BOTTLE WILL LAST A WEEK, AND OFTEN EFFECT A PERMANENT CURE.—Price $2.00.

For Nervous Debility, loss of Power, Impotence, Confusion of Thought, Loss of Memory, Irritable Temper, Hypochondriasis, Irresolution and Melancholy, which sooner or later

It has now been sent to nearly every State in the Union, relieving the painful sufferings of hundreds who have never seen the inventor, restoring them to comparative health, strength and happiness. *Price*—Quart bottle which lasts a month, $10; half size, $6.

☞ These four GREAT REMEDIES are the result of over twenty years study and practice, and are now prepared they are known to be *the very best* for their respective purposes, and I am therefore induced to make them public for the mutual benefit of myself and the sick, who otherwise would be cheated by worthless pretenders. They are all warranted as represented, in every respect, or *the price will be refunded.*

☞

A WORD OF CAUTION.

☞ It has been estimated that over *Two Hundred Thousand Dollars* are paid to swindling quacks annually in New England alone; and that, too, without any benefit to those who pay it. All this comes from trusting *with a stranger*, to whom you are alike destitute of honor, character or skill and whose *only* recommendation is *their own false and extravagant assertions in public or likewise.* The only way to avoid imposition is to take no man's word, *no matter what he promises you*, but MAKE INQUIRY. It will cost you nothing, and may save you many dollars, for, *in advertising physicians* in nine cases out of ten are *knaves*, there is no safety in trusting *any of them* unless you know who and what they are.

☞

Dr. M. will send *free*, by enclosing one stamp as above, a Pamphlet on DISEASES OF WOMEN, and on *Private Diseases* generally; giving full information with *the most undoubted references in the country*, which no advertising physician, or member of this kind is deserving of ANY CONFIDENCE WHATEVER.

DR. L. DIX

proudly refers to Professional and respectable Physicians—many of whom call him in critical cases, because of his acknowledged skill and reputation, attained through a long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!

Be not robbed and add to your suffering in being deceived by the lying habits, and impositions, of Ignorant and pretending

QUACKS AND NATIVE QUACKS,

who know little of the nature and character of Special Diseases and Cases to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and selecting in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

through false certificates and references, and recommendations of their medicine *by the Dead*, who cannot expose or contradict them, or who, besides, to further their imposition, copy from Medical Books much that is written of the qualities and effects of different herbs and plants, and vend the all the same to their Pills, Extracts, specifics &c., most of which, if not all, contain Mercury, because of the ancient belief of its "Curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon Mercury, and effects it to all [illegible]. In Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specifics, Antidotes, &c., both relying upon its effects, in curing a few in a hundred, it is transported to various parts throughout the land; but, alas! nothing is said of the failures; some of whom die, others grow worse, and are left to linger and suffer for months or years, until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, they are there among them who will prepare themselves, contradicting giving necessary to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for pink, medicating, or "the dollar" or "portion of it" may be obtained for the Nostrum. It is thus that many are deceived also, and needlessly spend large amounts for experiments with quackery.

DYSPEPSIA & FITS.

A SURE CURE FOR THESE DISTRESSING COMPLAINTS IS NOW MADE KNOWN IN A

"Treatise on Foreign and Native Herbal Preparations."

Published by DR. O. PHELPS BROWN.

The prescription was first [illegible] to him by such a prominent dignitary that he cannot consistently refuse to make it known, although he never was a believer in Clairvoyance, Spiritualism, Psychometry, &c. This remarkable remedy has cured everybody who has tried it, never failing in a single instance. It is rapidly superseding all Pills of Dyspepsia, and the ingredients may be found in any drug store. Those who are afflicted with Consumption, Bronchitis, or Asthma, may also be cured by the use of my Herbal Preparations, which are charged with electro-magnetic properties, and an ozone or atomatic atmosphere is continually emanating from them, in consequence of the *positive* and *negative* repulsion of its atomical electro-magnetical principles, thereby rendering their efficacy truly wonderful in all cases of Lung Complaints. I will send this valuable prescription free to any person on receipt of their name.

This article in shape and outward appearance resembles a highly finished rosewood coffin. It is much less awkward, in appearance lighter, more efficient and easier handled than the cast iron coffins which have been in use for several years.
